About me

JavaScript Specialist: I'm a enthusiast dedicated to turning ideas into code and crafting impactful digital experiences at 5 Years. As a software developer specializing in JavaScript, my journey is propelled by innovation and the relentless pursuit of elegant solutions to complex challenges.

Technical Expertise: My primary focus is on developing modern and efficient applications in JavaScript, leveraging cutting-edge technologies. From building dynamic interfaces with React to crafting robust servers with Node.js, I have experience across the entire spectrum of web development.

Commitment to Quality: Code quality is a priority for me. I continually seek to refine my skills and follow industry best practices, ensuring that my applications stand out for their robustness and efficiency.

Professional Experience

FullStack Developer

06/2022 - Present

Tarion-Beck

- Development design using Figma for new projects
- Development of interfaces , using React , Next and its libraries, such as Tailwind, Redux, React Hooks e.t.c.
- Development of new backend features for APIs, with Node , Nest , Swagger
- There is development of new service features
- Bot development using OpenIA APIs (Assistants)
- Responsible for integrating tests into projects

FullStack Developer

09/2018 - 12/2022

Connect Sports

- Development of interfaces , using React and Lib for Video Streaming
- Development of APIs using Microsft Azure services such as Storage, Media Services, SendGrid and more.
- Development of the payment flow using APIs from third-party services.
- Development of interfaces , using React and Lib for Video Streaming
- Development of APIs using Microsoft Azure services such as Storage, Media Services, SendGrid and more.
- Development of the payment flow using APIs from third-party services.

Skills

In my career so far as a Software eginner I have been able to acquire a lot of knowledge in some technologies, I have separated some of them below:

Web Development:

- Next • Nest • Node • React • Prisma • Express • MongoDB • MySQL • Typescript
- Tailwind • PostCSS • WebSockets • Resend • Redux • React Hooks • JWT • 2FA and more.

Version Control and Workflow:

- Git • Github • Bitbucket • GitLab • GitFlow

Cloud Experience:

- Azure (Storage, Media Services, Encoder, SendGrid, CosmosDB)

Architecture and Design:

- UI/UX • SPA • SSG • SSR • Swagger • StoryBooks

Continuous Learning:

- CI/CD • Microservices • Microfrontends • Docker • DevOps

Brief Exposure to Other Technologies:

- Lua • PHP • React Native • Jenkins • Electron • SonarQube • Vast XML (Video Ads) • AWS Cloud • Threejs • GraphQL • Apollo Server/Client • Supabase • Vercel

Soft Skills:

- Creativity • Proactivity • Adaptability • Emotional Intelligence • Collaboration
- Comunication • Critical Thinking • Continuous Learning
